Un Indien débourse 8,1 M EUR pour une plaque d'immatriculation

Un milliardaire indien résidant à Dubaï s'est offert une plaque d'immatriculation pour 8,1 millions d'euros lors d'une vente aux enchères.

Balwinder Sahani, un homme d'affaires indien d'origine koweïtienne résidant aux Emirats arabes unis, a payé en octobre 33 millions de dirhams (8,1 millions d'euros) pour une plaque d'immatriculation de Dubaï, "DS", pour une de ses Rolls-Royce.

Rhonda from Travel? Yes Please, wants to warn you that in order to avoid the 7-10 million tourists who make their way to Rome every year, an off-peak visit is an absolute must. You might think that visiting in the evening would help you avoid the selfie sticks but you'd be wrong. Just check out [this livestream to see what we mean!](#)

As a result, follow Rhonda's advice and visit just after sunrises to capture the perfect light without the crowds ruining a perfectly framed shot.

How to Take the Best Photos of Brandenburg Gate, Berlin, Germany

Photo credit: Armando G Alonso/Flickr (CC BY NC 2.0)

Lina and David from *Divergent Travellers* know that a trip to Berlin cannot be complete without visiting the iconic Brandenburg Gate. In order to grab a picture that will leave your friends and family gaping, you should make time to stick around for at least an hour. The Divergent Travellers also suggest two different times of day to take your photos. "In the early morning the sun rises over the city streets and you can capture great shots with the gate facing the city. In the late afternoon, the sun sets behind the gate with great views of Tiergarten."

NEW SPANISH PM RENESES TO VOTE ON ABSTENTION

Wednesday November 29, 2017

The new Prime Minister, Mariano Rajoy, during the investiture session in the Spanish Parliament

By Jack Wright

After ten months of deadlock Spain was finally able to elect Mariano Rajoy as new Prime Minister. That investiture on Saturday 29 October 2016 was made possible by the Socialist party (PSOE) decision not to vote on voting down Rajoy, the conservative Partido Popular's (PP) candidate for the office.

PP lost its absolute parliamentary majority in the December 2015 general elections, and again in the June 2016, which set off a hitherto unknown period of prolonged political instability since democracy was restored in Spain in the late 1970s.

Following which two inconclusive elections, the hung parliament had failed to give its vote of confidence to the two successive presidencies asps, PSOE's Pedro Sanchez and PP's Rajoy. Like Sanchez, Rajoy had been unable to get enough support from other parties to secure a majority. Rajoy had to form a coalition with all, with four major parties where there used to be only two. With PSOE's support immediately after the June elections, Rajoy would have become prime minister.

In Spain the head of the government is voted into office by the absolute majority of the members of the Congress of Deputies. This is the first investiture session. Failing that, the parliament (Congreso de los Diputados) is dissolved and a new election is held. At that time the executive hopefully will need just a simple majority to be invested. That is, the number of Yes votes exceeding the No.

This was exactly what happened this Saturday when 68 of the socialist deputies abstained from voting in accordance with PSOE's decision to allow PP to go on and form a government. Rajoy picked up 170 votes in his favour against the 111, instead of

Olive Garden, JC Penney and the Death of the Middle Class

Mid-level restaurants and hotels are floundering as luxury spending soars
by Lauren McCleary, staff writer

(Photo: Alejandro G. Almanza via Flickr)

Business is booming for both Barneys' and Bargain Basement, but as middle-income workers continue to get hit by recessionary pressures and wage stagnation, restaurants and retailers that once enjoyed the spending habits of the American middle class are dying off as their customer base falls back towards poverty.

How Do You Measure a Sea's Level, Anyway?

Gary Griggs
Published on SCIENCE · 5/21/15 7:30am

There are about 350 million cubic miles of water in the world oceans today, 97% of all the water on the planet. Early in our planet's 4.5 billion year history, water from the atmosphere and from the interior of the Earth gradually collected in the low areas on the planet's surface to form the ocean basins, accumulating salts along the way.

The level of the ocean around the Earth, and therefore the location of the shoreline, are directly related to the total amount of water in the oceans, and also closely tied to climate. As climate changes, so does sea level.

Throughout the history of the oceans, which goes back about 3.5 billion years, give or take a few million, climate has constantly changed and, in response, sea level has gone up and down. As seawater warms, it expands and sea level rises. As the Earth warms, ice sheets and glaciers melt and retreat, adding more water to the oceans, which raises sea level.

Friendship Is Painful, Messy, and Totally Worth It

I make a lot of mistakes when it comes to friendship.

In fact, there are times when I am ready to give up on it all together. I get hurt. I hurt others. Friendships are a mess. Friendships are hard. It takes intentionality. It isn't just about being friends with someone on Facebook. It is about really getting to know someone; it is about love and forgiveness, patience and perseverance, communication and a listening ear.

Friendship comes with a cost. Friendship will hurt, but it's worth it.

I am sometimes afraid to really commit to be someone's friend, because I know I might hurt that person myself or they might hurt me. It's happened before and I don't want it to happen again.

AQUAPLANING: QUÉ ES Y CÓMO ACTUAR

En plena temporada invernal los viajes en carretera suponen un placer para conocer otros pueblos o ciudades y disfrutar de su gastronomía, pero las condiciones climatológicas adversas pueden hacer aumentar el riesgo de accidentes relacionados con condiciones adversas como la lluvia, la nieve o el hielo.

Durante el presente artículo se va a analizar cómo detectar y actuar el efecto conocido como "aquaplaning", un término que resulta muy familiar a los conductores pero del que no se conoce tanto como se debería. Recuerda en cualquier caso que la primera indicación y básica en cualquier situación de carretera es reducir la velocidad.

En primer lugar, es imprescindible reconocer la naturaleza del efecto. Cuando se circula sobre asfalto húmedo el coche pierde adherencia y aumenta la distancia de frenado. Es posible admitir que se produzcan baches de agua de indeterminadas dimensiones en la carretera. Si se circula a una velocidad elevada se entra en este denominado

España roza la gloria en el uso de Whatsapp

Audi, en España, no han hecho apenas daño a WhatsApp otras aplicaciones como LINE o WeChat como si no existieran en el mundo digital. Los españoles no tiran hasta los límites gigantes como lo expresivos como en China o Corea del Sur. Todo lo contrario. Apuestan más por aplicaciones formales y profesionales como LinkedIn o Facebook. Así, se envían más fotos, videos, documentos, grabaciones de audio, crear listas, hacer grupos,... E incluso WeChat. Por ello, WhatsApp ha respondido a los españoles al pedir en cuenta a uso de mensajería instantánea se refiera.

Autor: Armando G. Alonso
URL: geo.gnif.net/

España es ya el cuarto país con mayor índice de penetración de la famosa aplicación. El 75% de la población móvil tiene instalada la herramienta y opera con ella habitualmente. Así lo refleja MarketingDirecto.com en una información que sitúa a Melilla como el primer ocupante del podio con un 77%, seguido por Valencia (75%) y Madrid (74%).

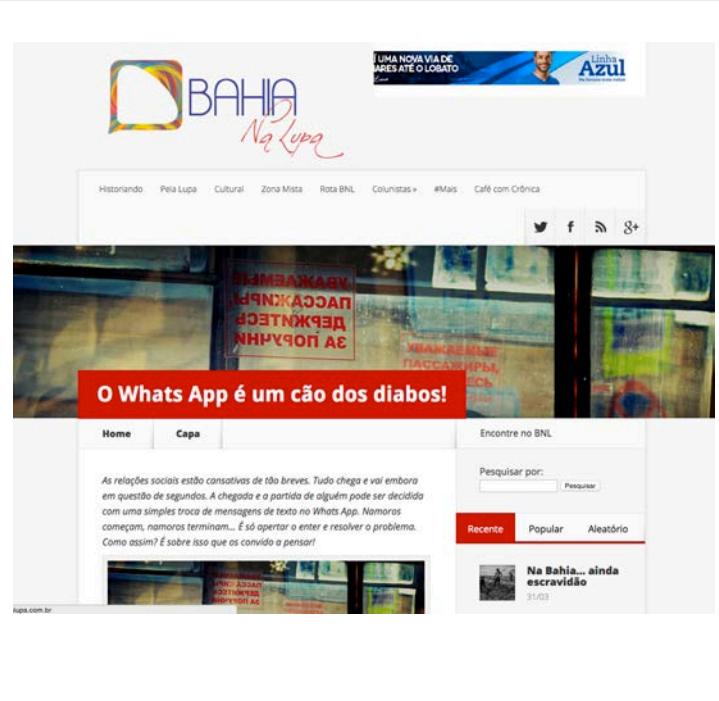

El caso de número pala cobra especial relevancia en el entorno europeo, al doblar con creces la media europea del 37%, estableciéndose por delante de países como Italia (66%) y Holanda (61%), segundo y tercero en la lista, respectivamente, al observar la penetración de WhatsApp en el Viejo Continente.

El fanatismo rojo

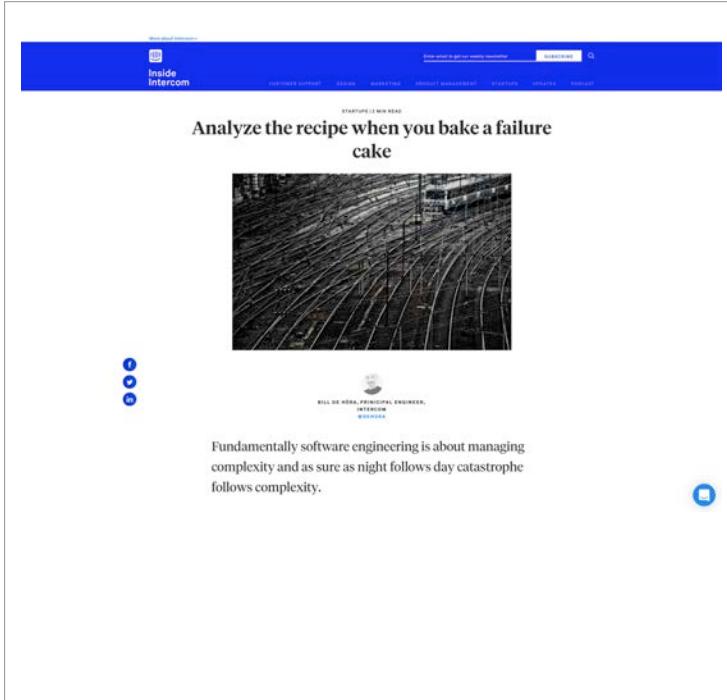

Sorprende que, por regiones del globo, sean precisamente los ciudadanos de Noruega quienes menos se inclinan a usar WhatsApp. De acuerdo a Zuckerman, fundador de Facebook, solo el 7% de los teléfonos inteligentes de este régimen (que engloba a Estados Unidos y Canadá) tienen instalado WhatsApp. A la cola, tal y como apuntábamos al inicio, el área de Asia-Pacífico registra sólo el 18% de penetración. Una cifra que contrasta con la de África, que es de 40%. Los países que emplean más la idiosincrasia monga que predomina en la zona como LINE, KakaoTalk o WeChat.

La traversée de l'Afrique du Nord au Sud (15 000 km)

© Armando G Alonso – Truck to Nouadhibou (Mauritania)

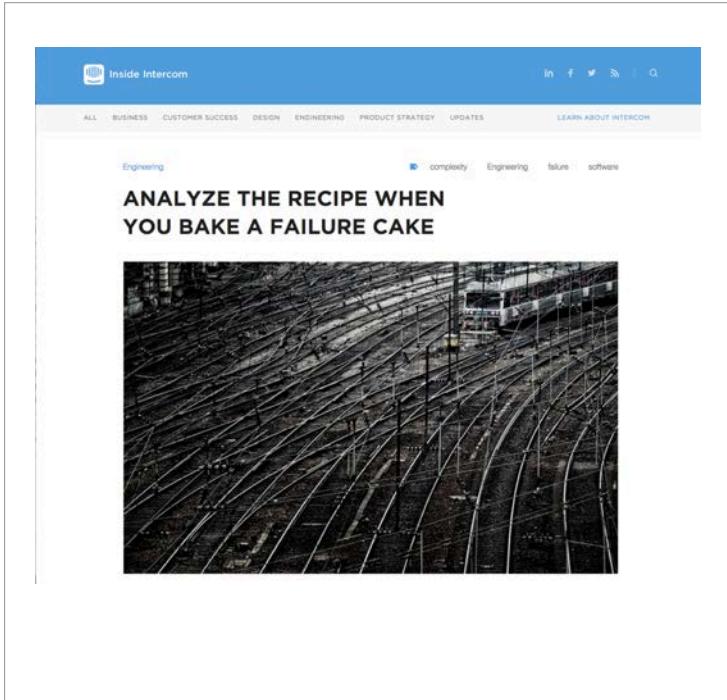

Je ne connais rien de l'Afrique subsaharienne. C'est un territoire qui, pendant longtemps, ne m'intéressait pas du tout ; mais ce sentiment est en train d'évoluer très, très rapidement. La faute à la littérature, à l'actualité, aux récits de voyageurs qui filtrent de plus en plus ma curiosité. Alors, par où commencer ? Je me verrais bien ne pas faire les choses à moitié, et traverser le continent du Nord au Sud ou l'inverse, du Cap au Cap. C'est à priori faisable, mais je pense que je ne suis pas encore prêt à faire un tel périple. Manque de connaissances techniques et mécaniques, et manque d'une certaine maturité je pense. Je garde néanmoins ce projet dans un coin de ma tête et, qui sait, peut-être vais-je découvrir la Namibie ou l'Afrique du Sud en attendant.

La Route de la Soie (18 000 km)

© Thomas Depenbusch – Tianshan Mountains, Kyrgyzstan

Cette route mythique m'est, à mes yeux, qu'un nom. L'idée de marcher « dans les pas de » marchands ou d'explorateurs ne m'intéresse pas vraiment, en revanche, l'état dans lequel se trouve actuellement tous les pays que traverse cette route me fascine. Aussi bien pour les paysans que pour les sujets de sociétés castratives ou illégales.

[Avis d'experte] Comment aider votre force de vente à être plus productive en mobilité ?

January 8, 2016 | Posted by La rédaction

Laurie Vauzel a intégré les équipes Microsoft en 2013. Chef de produit Dynamics pour les TPE/PME, elle accompagne les petites entreprises dans leur transformation digitale et dans leurs problématiques IT. Elle nous explique comment une solution de CRM peut faciliter la productivité de la force de vente en mobilité... et ainsi faire augmenter les ventes de l'entreprise !

Aujourd'hui, les commerciaux font face à des clients ultra-connectés. De plus en plus mobiles, ils sont à la recherche d'une relation client toujours plus personnalisée. Pour connaître au mieux ses prospects, la force de vente a donc besoin d'accéder aux informations en tout lieu et d'échanger avec ses interlocuteurs à tout moment.

»»» [Lire plus] Découvrez comment Microsoft Dynamics peut vous permettre d'augmenter votre productivité <<<

What's the scenario with global biodiversity?

POSTED ON MARCH 11, 2016 BY CHRIS MORAN

Hailing from off the coast of Spain, near the Canaries Islands, modelling future scenarios for biodiversity could be used to build more sustainable fisheries. Image: Antonio Ceballos / Oceana

Since the Intergovernmental Panel on Climate Change (IPCC)—the leading international body for the assessment of climate change—began its work on the science of greenhouse gas emissions, and on what needs to be done to reduce them, the rate of emissions has continued to rise. If certain policies are implemented or actions are taken to curb emissions, having commenced this work in 1998, the IPCC's ability to model these future scenarios, and how we are tracking against them, has become increasingly refined.

Now, the world's biodiversity and ecosystems are set to benefit from this kind of scenario modelling. Late February in Kuala Lumpur, the Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES)—which does for biodiversity what the IPCC does for climate—adopted an approach for using scenarios and models to inform policy making related to biodiversity and ecosystem services.

Quiz: Can You Fix It Yourself?

By Colin Cutler | 03/20/2015

Previous story Next story Chat

As a private pilot (or higher), you can perform 'preventive maintenance' on your plane. But what parts of your plane can you fix? It's time to find out...

1) You start preflighting your airplane, and...your battery is dead. Can you replace it yourself?

Armando G. Alonso

boldmethod

COURSES CLOTHING ARTICLES PLANES CAREERS QUIZZES VIDEOS CFI TOOLS MORE

Me quote Complain Tweet 21

Now that you've asked for an SVFR clearance, the next question is, will you get it? As long as there's no IFR traffic currently flying into Fort Collins, you'll most likely be cleared SVFR into the airport. However, if another airplane is in the Class E airspace under IFR, you won't get the clearance. That's because **IFR traffic has priority over SVFR**.

Armando G. Alonso

Why Use SVFR?

If you're already under a cloud ceiling, Special VFR is a good way to get to an airport that has better facilities.

How to sing your way to language success

By Richard Stokes, Ellie Buchdahl
18 November 2014 - 05:53

"To make something your own, you have to understand and believe the words that are coming out of your mouth." © Photo by Armando G Alonso under Creative Commons license.

What can songs teach us about a language? Richard Stokes, Professor of Lieder at the UK's Royal Academy of Music, talked to Ellie Buchdahl of Education UK about teaching the wonder of language through music.

How does a man who describes his own singing voice as 'rakker' and who once taught GCSE and A-level students to 'read' lyrics, learn music and make an absolute racket' chum out so many high-performing musicians and linguists?

Musician or teacher – which are you?

I am certainly not a musician. My 'qualification' is that, aged 14, I heard the baritone Dietrich Fischer-Dieskau on the radio singing Schubert's Die Schöne Müllerin. I had just started to learn German at school, but I recognized a few words and something about this wonderful voice made me fall in love with the language.

Jak poprawnie ćwiczyć na stepperze?

Wysła z dnia 14 listopada 2014 napisany przez użytkownika Sabina

Zauważałem, iż ostatnio panuje litym szat, jeśli chodzi o trening na stepperze. Nawet u mnie w domu nieszczerkanie go znalazłem. Moja panie mówi, iż to dla nas. Nie chce mnie jednak dopuścić do niego jak również muszą ćwiczyć po krypcie.

Proszę, że podzielę się z wami swoimi spostrzeżeniami, jeżeli chodzi o stepper jak również ćwiczenia w nim. Większość reguł jest taka sama jak w przypadku ćwiczeń na innym sprzęcie. Czyli każdorazowo potrafię pamiętać:

- * interencyjne jak również doskonałe rozgrzewki,
- * zapewnienie sobie właściwego momentu do ćwiczeń tak, aby o nic nie zahaczał,
- * to, co to w sumie podstawniane ćwiczenia, gdyż możemy zrobić albo:
- * skuteczne, szybkie i jedno to realne płynne ruchy, kiedy to pedały urządzienia nie są dokuciane do kolana i nie osiągamy pojęty granicznych sprątu.
- * krótkie, szybkie i jedno to realne płynne ruchy, kiedy to pedały urządzienia nie są dokuciane do kolana i nie osiągamy pojęty granicznych sprątu.

Autor zdjęcia: Armando G Alonso

Trenujemy jak chcemy

Poprawny sposób ćwiczenia na stepperze zależy od nas. Istotne, aby wszelkie ruchy wykonywano doid plynne. To tak jak wtedy, kiedy wsiadamy na rower stacjonarny i rozpoczęynamy jechanie. Wtem w sposób intuicyjny, w jaki sposób ćwiczyć.

CÓMO SUPERAR EL PERFECCIONISMO: LAS 10 CLAVES (PARTE 2)

19 noviembre 2013

Como hemos visto en la [primera parte](#) del post, el perfeccionismo aplicado a todas las facetas de la vida (trabajo, familia, ocio, asuntos personales) es un continuo sin vivir. Un ideal inalcanzable del que solo emanarán decepciones y frustración.

El perfeccionista suele pensar que ha tenido éxito gracias a su forma minuciosa, exhaustiva y controladora de hacer las cosas, cuando en realidad lo ha conseguido pese a ello.

Darle cuenta de esto y salir de esa seguridad (falsa, pero conocida) es un gran paso, de un valor incalculable.

A continuación, sintetizo las 10 claves que considero fundamentales para dar el paso y superar el perfeccionismo:

Forget a Backseat Driver: These Taxis Offer Backseat Therapy
Leah Glabberg November 13, 2014
Beat the winter blues with Taxi Stockholm's therapy on the go. (Photo: Armando G Alonso/Flickr)
Usually when you take a taxi, you give the driver a tip. But with Taxi Stockholm, the passenger is the one who really gets the tips — tips from a ride along therapist, that is.
From Nov. 3 to Nov. 17, the Swedish cab company is sending out therapists in the back seats of some of its cabs to help people combat winter blues with free consultations.
It all started when the owners of Taxi Stockholm realized that people seem to talk about their problems during quite drives. According to its spokeswoman, Natalia Santos, around 70 percent of people in one survey said taxi rides are a good time for reflection. "And when you think about it, the drivers can even become like therapists," says Santos. "So we decided to put the two

BEST BEGINNER MOTORCYCLES – A BUYER'S GUIDE

Photo by Armando G. Asturias

Photo by Armando G. Asturias

Passing any sort of test is exciting, but one that allows you onto America's highways and byways, unopposed, riding the motorcycle your heart desires or your fancy takes... that's one of life's greatest post-assessment elations.

Although you now have your license, though, you're still effectively a brand newbie to biking. While the examiner's questions have ended, yours may well have just begun: "What type of bike is most ride-friendly? What safety gear do I need? What further training courses would I be well advised to take?"

All the answers are here.

WHICH MOTORCYCLE TYPE TO CHOOSE?

The major considerations that will help you choose the best first motorcycle begin with type. Types of ride are commonly codified by describing the use the machine is put to; the designer's intent.

The Ministry of Development (Fomento) has confirmed the Spanish air traffic controllers' strike and has established the minimum services in 70% of the scheduled staff for three days. The controllers called a strike to prevent the decision to sanction 63 controllers over a strike which ended with the total closure of Spanish air space in 2010. Being unable to reach an agreement with the main controllers' union (USCA), the Government published a press release on both ensures as fomento to defend the minimum services. This is the translation from Spanish:

cdevelopment fees the minimum services for the strike called by ENAIRE's air traffic controllers.

RAPORTY

Mimo konfliktu na Ukrainie władze Szwajcarii wydały w ubiegłym roku zgódę na wyeksportowanie do Rosji specjalnych tkanin maskujących o potencjalnym przeznaczeniu wojskowym za 90 mln franków - poinformowały w poniedziałek szwajcarskie media.

Widomość ta, którą jako pierwsze podały tygodniki SonntagsZeitung i Matin Dimanche, potwierdził rzecznik sekretariatu stanu do spraw gospodarki (SECO). Według rzecznika realizacja umowy została przez SECO zatwierdzona, gdyż zawarto ją jeszcze przed decyzją szwajcarskiego rządu o przyłączeniu się do sankcji, nałożonych na Rosję przez Unię Europejską.

Wydane pod koniec sierpnia przez rząd w Bernie rozporządzenie zakazuje eksportowania do Rosji i na Ukrainę tak zwanych materiałów dual-use, które można wykorzystać zarówno do celów cywilnych, jak i wojskowych. Jeden z artykułów rozporządzenia głosi, iż jego postanowienia nie dotyczą transakcji zawartych przed 27 sierpnia 2014 roku.

Home / EU / Mos Maiorum: A hunt for the undocumented

November 21, 2014 EU, Europe, Human Rights, Security

Mos Maiorum: A hunt for the undocumented

Police across EU participated in a search for undocumented immigrants this October. Source: European Parliament

Between the 17th and 26th of October 2014, a hunt for illegal immigrants took place in several member states in the European Union. The operation was initiated by the Italian Presidency of the Council of the European Union in cooperation with the European border authority Frontex. All the EU countries were invited to participate. The goal was to stop trafficking networks but it has been heavily criticized for worsening the exposed situation of already vulnerable individuals.

Information about the operation is hard to come by. The European Parliament was not the main actor in charge, and provided documents to the Italian police department relating to the operation. In the case and in Sweden the politicians have referred to the police on questions about Mos Maiorum since it was making the police that took action in this project. But the police was also unwilling to comment on the operation, referring to a common policy not to comment on operations to avoid putting the operational success at risk. Only one official document regarding the operation is open to the public, it is published in the EU without but a lot of the information has been deleted. However, the original document has been leaked giving some insight. The operation was aimed at among other things to identify and apprehend illegal immigrants to carry out deportation, to identify and remove them, to deport, and to fine. Besides finding undocumented immigrants, the aim with the operation seems to be to identify, prosecute and disrupt organized crime groups, to fight illegal immigration and to find the main routes of illegal immigration. In order to do so, the countries that participated were encouraged to gather information about the illegal immigrants, which included nationality, gender, age and time of arrival in the EU. The purpose of collecting information about the illegal immigrants was stated to be for investigation purposes.

Music's Amazing Effect on Long-Term Memory and Mental Abilities In General

The fascinating effect of music on people's cognitive abilities.

Professional musicians show superior long-term memory compared with non-musicians, a new study finds.

Their brains are also capable of much faster neural responses in key areas of the brain related to decision-making, memory and attention.

The results were presented at the Society for Neuroscience annual meeting in Washington, DC (Schaeffer et al., 2015).

TRENDING: Sanders Surge | Green in or Green Out?

Olive Garden, JC Penney and the Death of the Middle Class

Mid-level restaurants and hotels are floundering as luxury spending soars

by Lauren McCaulley, staff writer

Business is booming for both Barney's and Bargain Basement, but as middle-income workers continue to get hit by recessionary pressures and wage stagnation, restaurants and retailers that once enjoyed the spending habits of the American middle class are dying off as their customer base falls back towards poverty.

Providing further evidence that the post-recession economy is one in which only the rich have prospered, a New York Times analysis published Sunday says that, as evidenced by the current winners and losers in the business world, the middle class is undoubtedly "trading."

"The post-recession reality is that the customer base for businesses that appeal to the middle class is shrinking as the top tier pulls even further away," the Times reports.

ILLINOIS LABOR-UNION MEMBERSHIP IN 10 CHARTS

Month 10, 2016

One in 10 workers in the private, for-profit sector are union members in Illinois – 1 in 12 in the nonprofit sector. But more than half of Illinois' government workers belong to a union.

By Bruce Rauner

Gov. Bruce Rauner has proposed dramatic reforms that could affect both public and private union participation in Illinois, and two particular labor union issues are now in the headlines.

The first issue is whether Illinois state workers should be forced to pay money to a labor union as a condition of their employment. The second issue centers on local employment opportunity zones, which would allow governments to decide whether workers should be forced to pay dues to both public and private unions.

Even though roughly 15 percent of wage and salary workers in Illinois are members of a union, the limited government data that is publicly available does not delve into the demographics and incomes of these workers on the state level.

In order to provide a broad and general snapshot of labor-union membership in Illinois, the Illinois Policy Institute commissioned a custom data search from Bloomberg BNA to shed light on the labor outcomes. The results are presented in the following interactive chart.

Researchers for Bloomberg BNA analyzed data from the U.S. Census Bureau's Current Population Survey. The results are based on the annual surveys from 2010 to 2014, resulting in three-year averages. The survey includes workers aged 16 and over, and all earnings data are in 2014 dollars.

Percent union affiliation of employed wage and salary workers for 2013, 2014 and 2012-2014 (3-year average)

Soorten gewone mensen die een belangrijke rol spelen in de geschiedenis. De vraag 'Wat was de Berlijnse Muur?' brengt echter nog een belangrijke vraag ter sprake: 'Was de val van de Berlijnse Muur (en dat van het communisme) onvermijdelijk?'. Hoewel het makkelijk is om 'ja' op te beweerdenden kan ik het mij voorstellen dat de Sovjet-Unie niet zo'n grote rol speelde in de val van de muur. De Sovjet-Unie had immers dat dat in China en Noord-Korea, communistische systemen kunnen wel degelijk voorbeteren. De Sovjet's zouden reformaties doorvoeren zoals in China om contact te maken met de rest van de wereld en tegelijkertijd een één-partij staat te blijven. Ik weet alleen niet zeker of dit ook zou werken voor Oost-Europa waar het communisme werd opgelegd en de overheersing van de Sovjet-Unie werd geminacht."

De slachtoffers van de Berlijnse Muur. Foto gemaakt door Armando G Alonso via Flickr.

Historicus Frederick Taylor, auteur van het boek 'The Berlin Wall'.
Taylor wil vooral duidelijk maken dat als de Muur nooit was gevallen, Oost-Duitsland nog amper was geweest dan dat het destijds al was. 'Het zou nu politieke zijn geworden, eentje die wij al sinds de tijd van Stalin niet meer hebben gezien.' Taylor laat dit zien door een analyse van de gebouwentrissen in de jaren tachtig. 'Wij wisten dat in het midden van de jaren tachtig de Oost-Duitse overheid plannen had gemaakt om de bestaande Muur te 'upgraden' met een elektronische constructie. Deze nieuwe Muur zou niet alleen een fyysische maar ook een elektronische muur worden. De Oost-Duitse overheid had de mogelijkheid om te overdenken. Het enige probleem was schrik van Oost-Duitsland en haar bezien in Midden-Europa. Daarom had men het plan uit te vieren. In 1985 werd de hervormer Gorbatsjov leider van de Sovjet-Unie. Hij had een andere visie dan de Oost-Duitse leiders; onder hen bestond geen heftig over het instellen van een nieuwe golf van represie op haar burgers. Zij wilden het volk maar al te graag weerhouden van liberale eisen zoals het einde van de dictatuur en de vrijheid om te reizen. Gorbatsjov weigerde echter alle medewerking. De enige manier waarop de Muur blijven bestaan is als Gorbatsjov was vervangen door een strengere leider door middel van een staatsgreep. De represieve maatregelen van de Oost-Duitsers om de Muur te behouden, hadden dan wel de medewerking van de Sovjet-Unie gehad. Het was dus mogelijk geweest om de Berlijnse Muur te behouden. Dit had echter nooit de politieke en financiële problemen van Oost-Duitsland opgelost. Sinds de crisis in de jaren negentig is het oosten zichzelf in een positie gesteld dat het niet meer geldt terug te keren in haar bezit en het had een enorme schuld bij Rusland en West-Duitsland. De Oost-Duitse overheid brekende in 1990 dat de levensstandaard van de bevolking, om de schulden af te kunnen betalen, met 25 tot 30 procent zou dalen. Ook de productie was gevaarlijk laag en bleef deels dalen. De enige inkomsten die het land binnenkreeg, kwamen uit de verkoop van politieke gevangenen aan

All adrift: aviation, shipping, and climate change policy

Meaningful policy measures to address rising CO2 from international aviation and shipping remain woefully inadequate, according to a new article in Climate Policy by Alice Bows-Larkin.

Bringing together Tyndall research on both of these key sectors, the article concludes that there are stark differences between aviation and shipping that need to be more clearly distinguished. "There is a portfolio of opportunities for short- to medium-term decarbonisation for shipping, but its complexity is its greatest barrier to change. In contrast, for aviation the solution remains controversial and unpopular – avoiding 2°C requires aviation demand management", said Alice Bows-Larkin.

Quiero ir en bicicleta eléctrica

El Ayuntamiento de Madrid | [Ver más...](#) [RSS](#)

Los ciudadanos se transforman en un ritmo vertiginoso cada vez que nos damos cuenta, mientras nos dirigimos en metros a metros largos de trabajo en bicicleta o en libre o esperando un metro. Podemos aprender a ser conscientes de ese cambio y apoyar nuestro gusto de armar a un deseo donde la sostenibilidad sea la protagonista.

¿De qué puedes o pensar algo vez por que es la mejor de los coches que vas circulando hoy en día por? Supongamos sobre nubes neblina o sol nubes bombilla LED en la lugar pero, ¿cuál es modo de consumo responsable aplicable a nuestro transporte diario?

La gran mayoría de las ciudades europeas han visto en los últimos años una creciente demanda de bicicletas en sus calles. El ahorro en combustible y los beneficios para nuestra salud que supone no usar los vehículos a motor gracias a su uso de bicicletas habitual por las personas. Con una bicicleta, que además permite operar con casi cualquier tipo de energía, se reúne la combinación que anima con comodidad la realización de futuras en nuestras cada vez más competidoras metrópolis.

Si eres subido a la bicicleta y el mundo, sientete, claro, que enciende tu barrio.

How Tension Affects Your Voice (And What to Do About It!)

March 4, 2013 / 0 Comments / by Suzy B.

FREE
Singing Video Series for beginners
Download Here!

As a beginner singer, it's important to understand how unnecessary tension affects your tone and your breath support. Here, NY teacher Nadia B. shares what to keep in mind and how to combat that tension...

Singing is, in many ways, a very natural activity. We all have a voice, and it is meant to be used to communicate in speech and in music. However, when one delves more into the art of singing through **voice lessons**, practice, and performance, tension sometimes creeps in. It can seem uncontrollable and the source unidentifiable. The reasons for tension are many, but with the following tips you should be able to better identify how to sing without tension and enjoy a singing practice that is full of expression and requires much less effort.

Understanding the Common Causes of Tension

To combat tension, the first step is to understand some of the common causes for tension while singing. The most common ones I encounter are a mix of psychological and physical. **Trying to be right and using too much effort** are two of the biggest factors in tension.

Självkörande bil ger sjuka ny chans

Skrivet av Bra Nyheter i Teknik // 0 kommentarer

For det första så tycker vi att bara nyheten om självkörande bilar är helt fantastisk. Men ser man till alla de möjligheter som de kan medföra så blir det ännu mer häftigt..

Tänk att kunna åka runt i en helt självkörande bil, du kan göra vad du vill i princip medan bilen tar dig till din destination. Valdigt tidssparande.

Цены на субботние билеты на «Сапсан» до Петербурга снижены при покупке заранее

13-14 17:04:15
РИАМО - 17 апр. Субботние билеты на поезд «Сапсан», следущие по маршруту Москва - Петербург, будут дешевле, в том числе и для жителей Московской области, на 40% при оформлении заранее до 30 апреля и с 11 мая до 30 июня, сообщается на сайте РЖД.

«На высокоскоростных поездах между Москвой и Санкт-Петербургом ОАО «РЖД» снижает стоимость проезда на 40%, при оформлении проездных документов в вагоны всех классов обслуживания всех высокоскоростных поездов «Сапсан» отправленном по субботам. Теперь при заблаговременном оформлении проездного документа (за 45 суток) его стоимость составляет от 1393 рублей», - говорится в сообщении.

Как отмечается в материале, скидка действует с 16 по 30 апреля 2015 года, а также с 11 мая по 30 июня. Кроме того, на предлагаемый новый субботний тариф распространяется действие дорожных карт. Так, итоговая стоимость билета для владелец карты «Бон» составит около 699 рублей.

По данным на сайте, оформление проездных документов на поезд «Сапсан» производится во всех железнодорожных кассах, осуществляющих продажу билетов на поезд дальнего следования, а также на официальном сайте ОАО «РЖД».

Школьные группы могут ездить на «Сапсане» с 30% скидкой с 1 апреля»

WAR ON TERROR RENDITION GUANTANAMO ARBITRARY DETENTION AND TORTURE COERCIVE OPERATIONS UK POLICIES WORLDWIDE TERRORISM POLICIES IDEOLOGY ISLAMIC FOCUS

SWEDEN DOES NOT NEED NEW TERROR LAWS

Saturday 22 November 2014
Written By: Fahad Ansari

Fahad Ansari, Human Rights Lawyer and Co-founder for CAGE writes this piece, first published in Sweden's second largest newspaper, on CAGE's views on Swedish counter terror policy. With a renowned record for dealing with crime, Fahad questions their intentions to move towards policies similar to those adopted in the UK, which have not only failed in their application but also fundamentally erode civil liberties. CAGE were invited by human rights organisation NMKKA to speak at a seminar in Sweden on Friday addressing the issues raised here.

(CC image courtesy of Amanda G Alonso on Flickr)

Sweden is renowned for its innovative solutions to social problems such as drug abuse, prostitution and crime. Through its unique approach to understanding the causes of societal illness and address offenders with dignity, Sweden has successfully tackled these problems like no other. The criminal justice system emphasizes rehabilitation rather than retribution with judges not only failing in their application but also failing to address drug and violence rather than criminal sentences. This has led to a significantly lower level of recidivism than in other countries.

It is concerning to learn that the government is considering replicating counter-terrorism laws and policies implemented in the UK. For over 14 years, the UK has adopted a sledgehammer approach to fighting terrorism which has been as physical as it is terrifying. Hundreds of millions of pounds have been spent on community projects such as shelters and youth clubs with the proviso that possible, all public service providers - the health, education and university sectors and the emergency services - are required to look out for signs of radicalisation and report them. The political and religious views of an individual, information about their mental health, sexual activity, associates and other sensitive information may be shared with the authorities.

Environmental sustainability

22 maja, 2014 | Lämna en kommentar

Armando G Alonso via Compfight

To contribute to a better environment people can for example reduce traveling by aircraft, cars and ships because it releases a lot of carbon dioxide. (Airplanes release 2% of the world's carbon dioxide)

When we go and buy food we can take our bicycle instead of taking the car. Taking the bicycle is much better for the environment because the bike does not emit any carbon dioxide and it's good for your health. The car releases lots of carbon dioxide and it is not good for the environment. Another thing to do is to take the bus instead of your car when you go to your work place.

These are things that everyone can do to help to improve and if all people would think like that it would be a great help to a better environment.

Another thing that we can do is to buy locally produced food. For example, you can eat seasonal food, like vegetables in the summer and mushrooms and berry in the autumn.

How Do You Measure A Sea's Level, Anyway?

GARY GRIGGS 22 MAY 2015 11:00 PM

Share Discuss Bookmark

There are about 330 million cubic miles of water in the world oceans today. 97% of all the water on the planet, Earth in our planet's 4.5 billion year history, water from the atmosphere and from the interior of the Earth gradually collected in the low areas on the planet's surface to form the ocean basins, accumulating salts along the way.

The level of the ocean around the Earth, and therefore the location of the shoreline, are directly related to the total amount of water in the oceans, and also closely tied to climate. As climate changes, so does sea level.

Throughout the history of the oceans, which goes back about 3.5 billion years, give or take a few million, climate has constantly changed and, in response, sea level has gone up and down. As seawater warms, it expands and sea level rises. As the Earth warms, ice sheets and glaciers melt and retreat, adding more water to the oceans, which raises sea level.

'Nieuw bewijs dat Russische militairen vochten in Oost-Oekraïne'

Russische militair doet zijn verhaal in de krant Novaja Gazeta ... 'Tevreden was zich ervan bewust dat we de grens overstaken'

In de Russische krant Novaja Gazeta verschijnt vrijdag aanstaand een gedetailleerd ooggetuigenverhaal van een Russische militair die in de oorlog in Oost-Oekraïne vocht. Met een sterke aanwijzing voor de betrokkenheid van Rusland bij de acties in Oekraïne, al erkent de Russische regering nog steeds iedere betrekking te hebben.

De 30-jarige Russische beroepsgevechtster, Dsmitrij Batovskaja, vertelt in het artikel zijn verhaal. Ze vertelt hoe hij op 10 februari werd gedetachiseerd en een tankbatterij joegde met zijn compagnie. De Russische beroepsgevechtster verklaart tegen Novaja Gazeta dat hij op 25 februari in feuerwerk Detachement werden ingezet, waar hij op de hielen zwaargewond raakte, waarna hij terugkeerde naar zijn compagnie.

Het Novaja heeft het interview, dat gemanuscreet is door journalist Anna Konstantinova, verstuurd. In het interview benadrukt de militair onder meer dat zijn collega's en hij niet onder druk stonden om over de grens te gaan, HRC West:

'We hadden heel het interview, dat gemanuscreet is door journalist Anna Konstantinova, verstuurd. In het interview benadrukt de militair onder meer dat zijn collega's en hij niet onder druk stonden om over de grens te gaan, HRC West.'

Gingen jullie op oefening?

'Ze deden dat om oefeningen te doen, maar we wisten waar we heen gingen. We wisten allemaal waar we heen gingen, maar er mentale was ik klar om Detachement te gaan. [...]'

Heeft niemand - politiek functionaris of commandant - tegen jullie iets gezegd over Oekraïne?

'Nee, bedenken was zich overal in bewezen. Waarschijn stellen ze het ons voorhouden. Want dan dwelde ons ook potentiële doodsoor voor de straf. We wisten alles af voor we op de trein stapten.'

Berechten jullie dat je de grens oversteg?

'Jezelfen was zich ervan bewust dat we de grens overstaken, maar moesten we nou? We konden toch niet schieten. We kregen geen bevel. We wisten allemaal wat we moesten doen en wat er aan voorstond. Maar er schot ook vrijwel niemand terug. De redding kent hoor werk, dat moet evenwichtig, duidelijk en volkomen.'

Вечерние и утренние молитвы до Вознесения

В первую неделю Пасхи, называемую Светлой седмицей, вместо вечерних и утренних молитв читаются Часы Пасхи.

Памятный канон, а также каноны Богоявление и Ангела Хранителя молитваются каноном Пасхи. Всю Свяшту однажды царские врата в алтаре остаются открытыми и не закрываются до шестого дня (субботы).

На шестой день после Воскресения Христова (с вечера субботы), возобновляется чтение обычных молитв. Правда, с некоторыми особеностями.

5 MEEST GEMAAKTE FOUTEN IN DE LEAN SIX SIGMA PROJECT CHARTER
Published 13 oktober 2015
Als Master Black Belt zie ik regelmatig LSS Project Charters voorbij. Kommer. Grag daar ik een paar veel gemaakte fouten met jullie. Een Project Charter is een levend document dat ter voorbereiding op de 'Tolgaag' (het overleg met opdrachtnemer, proces en team Champion) moet zijn klaarstaan. Het heeft belangrijke kenmerken van een Lean Six Sigma verbeterproject. Iedere Charter kan altijd scherper, helderder... kortom: het kan altijd beter. Hieronder staan de 5 Charter-echt niet goed genoeg te staan. Daarmee bedoel dat er een grote kans ontstaat dat het project niet de juiste verbeteringen zal opleveren.

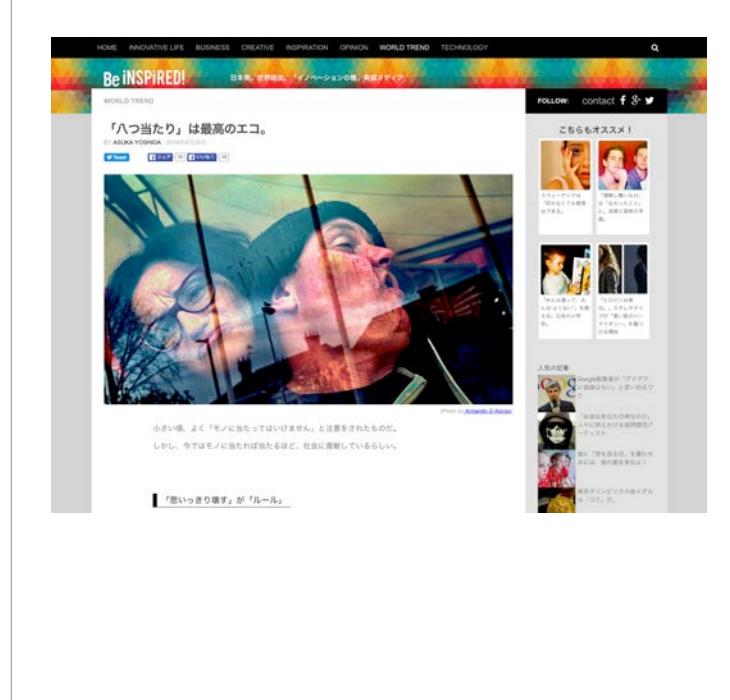

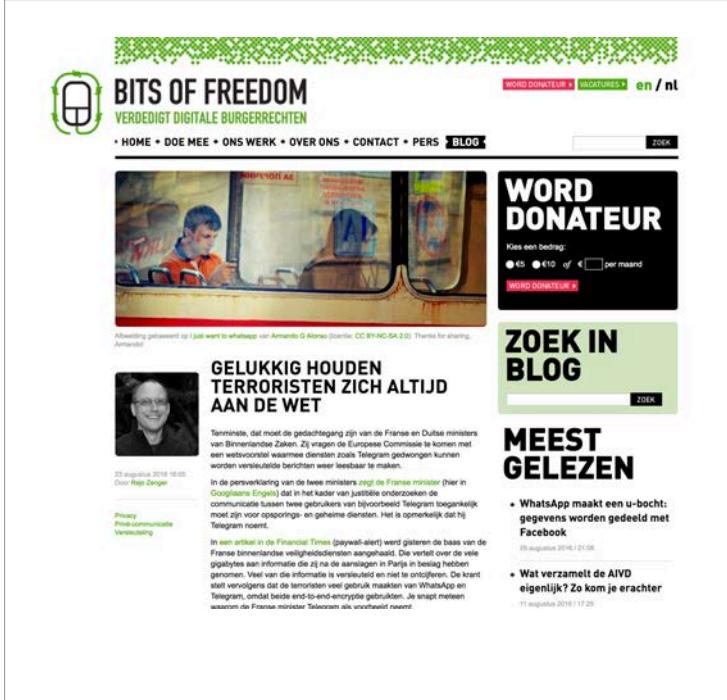

FOUT 1: DE SLECHTE PROBLEEMDEFINITIE VAN DE CHARTER
De meest cruciale fout die ik in Project Charter tegenkom is het opeisen van een probleem. Of beter gezegd: een goede beschrijving van wat nu precies misgaat. In feite is een verwijzing als "we werken op dit moment niet efficient genoeg" of "de enige vraag die dan bij mij opkomt is: 'wie er en?'". Een goede probleemdefinitie heeft betrekking op problematische data, gegevens, of klantverwachtingen. Bij voorkeur in drie verschillende paragrafen van de Charter. Vanaf het begin dat als de "hou en?" vraag werkbaar moet. Bells een den snel wat het manco is aan de probleemstelling:

- ▶ We werken niet efficiënt. Hou en?
- ▶ Het 'niet efficiënt werken' uit zich in niet gehaalde deadlines. Hou en?
- ▶ Oh, dat betekent dat we klanten kwijtraken, speciale koeriers moeten inzetten of boetes krijgen van opdrachtnemers. Hou en?
- ▶ Oh, op dit moment kunnen we 15% van de deadlines niet, dus we maken enorme kosten ...

En op deze manier maken we dan samen de probleemstelling steeds scherper.

НЕКА ВИ РАЗКАЖА ЗА ДОМА И РОДИТЕЛИТЕ МИ

За мен това са хората, които направиха света ми стабилен и ми дадоха възможност да стъпвам по-уверено на собствените си крака.

Днес, когато вече сум напуснала техния дом, там не връщат **толпината** и любовта от детството ми. Там отново се чувствам детето, чиято ръка е толкова малка, че може да обхване едва един човешки прист... и този прист е най-стабилната опора на света. Никак по-голямо спокойствие от това! Ако човек има щастливо да го изпита поне веднъж в живота си, никога няма да го забрави. И винаги ще има нужда да се връща към него.

А ако там някъде са запазени старите, очукани и скованы от времето колела, книжки, играчи и какво ли още не, то не е защото са никому толкова потребни, колкото защото пазят живи **най-скъпите ни спомени**.

Аз не съм родител. Не създавам истински

MUSEUMS AT NIGHT | OCTOBER 2017

Scotland-wide Friday 27 October - Saturday 28 October

Take a year-long cultural publisher Culture24 invites all UK museums, galleries and heritage sites to throw open their doors after hours to showcase their treasures in unexpected ways.

Museums at Night is an opportunity for museums and galleries to come together around a single, simple message that is attractive to venues, audiences and the media. It's a social experience, where visitors can get involved, delve deeper into fascinating subjects and perhaps enjoy a cocktail or two with friends.

To everyone involved in the festival, venues and visitors, we hope you have a wonderful time!

Cruise ships built for speed

Auto Huren in Brussel

Laagste Prijsgarantie! Alles Incl. Boek Nu Hier Of Bel Ons Gratis

The Queen Elizabeth 2, retired in 2008, was purpose-built to become the world's fastest passenger ship. Her cruising speed of 28.5 knots was achieved using approximately only 75% potential, with two of her nine engines at rest for maintenance at all times. The top speed of the Queen Elizabeth 2 is reportedly 32 knots. An important consideration in cruise ship speeds is fuel consumption, with an increase in consumption relative to speed. Modern ships are designed to travel with minimum stress on the engine, maximum fuel efficiency, and reasonable itinerary schedules.

Cruise ship speed variables

Ships have a top speed threshold and a comfortable service speed, and there are various factors that determine how fast a ship will travel. Cruise itineraries are designed for speeds that achieve maximum pleasure for passengers without stress on the ship engines.

Other factors include:

Facebook har netop købt besked-app'en WhatsApp, og betalt i alt \$19 mia. for den fornøjelse. Men hvorfor betale 19 gange mere for WhatsApp end for fx Instagram, som Facebook købte for alle \$1 mia.? Og det blev endda allerede dengang anset for være et svimlende beløb.

Årsagen er, at WhatsApp har 450 mio. brugere på verdensplan, mange af dem i udviklingslande som fx Nigeria. Her bruges app'en stedet for SMS'er, som kan være dyre. Mange unge i vesten bruger desuden WhatsApp som SMS-platfrom, ligesledes fordi det er billigere.

- Facebook køber ikke en app, men en **brugerguppe**
- Unge bruger ikke Facebooks hovedsite så meget, som de har gjort (Kilde: Facebook, Oktober 2013). Derfor køber de sig adgang til de unge her.
- Ryget vil vide, at Facebook forsøgte at købe Snapchat, men ikke fik lov. Deraf i stedet WhatsApp.

WhatsApp købt af Facebook – hvad betyder det?

Rational Operationalization

by Royal Battle Aug 18, 2017

Support Automation Repetition

This post was originally published [here](#).

My first contact with support happened early in my career. I was part of a team that, amid other jobs, would operationalize procedures for an operations team to execute. It didn't take long to realize that the lower the automation level, the higher the probability for the operations team make a mistake. Several factors contributed to this:

1. The operations team worked in shifts, 24x7, and always with a high churn rate (there was always someone leaving or joining the team);
2. This team's elements had lower qualifications and a low knowledge of the business or its rules (they weren't supposed to);
3. The operations team executed procedures from several support teams (my team was just one among many), and therefore they didn't know the procedures in detail, how they were implemented or what were they for;

Sí, lo sé. Ando con cierto retraso este año en escribir en este espacio. Mea culpa. Quizá muy atareado con proyectos, con esas ideas que surgen cuando empieza un nuevo año (la verdad es que tampoco tengo la sensación de que haya cambiado nada). De nuevo me pongo en serio a ello. Como digo en otro espacio, me gusta escribir porque así me entiendo mucho mejor.

El 2014 ha calido con toda su fuerza o mejor dicho hemos entrado con él con el mismo ritmo con el que andábamos en el 2013. Tengo esa sensación de que hemos apartado de un lado la palabra crisis (que no quiere decir que haya desaparecido) y nos hemos arremangado la camisa, bajar la cabeza y dedicarnos a pensar y hacer al mismo tiempo. Es la actitud. Sólo así podremos dar pasos, sean del tamaño que sean.

Biedt meer bedrijven stimuleren het maken van wandelingen op kantoor. Dat meldt The Guardian. Wandelen heeft verschillende voordeelen voor managers en werkenden, zoals een verhoogde creativiteit, verbetering van de focus en mentale gezondheid, en een verminderd risico op depressie. Steeds meer bedrijven erkennen deze voordeelen en poseren de werkomgeving hier op aan. Zo wil Google in Londen een nieuw kantoor neerzetten met een joggingbaan op het dak. Samsung heeft zijn hoofdkantoor zo ontworpen dat er een wandeling in de buitenlucht moet worden gemaakt om op een andere verdieping te komen. Ook worden de zogenoemde 'walking meetings' populairder, waarbij werkneemers met elkaar in gesprek gaan tijdens een lange wandeling.

On IT-Infrastructure security as a complex, not necessarily complicated, task

Published by Hanfried Leisterer on 29 June 2014 0

Every society builds upon functioning infrastructures which are kept as free from bugs and manipulations as possible. That is all the more true when it comes to critical information infrastructures, i.e. information and communication technology, which can be conceived as nerve fibre and are vital to and of particular importance for society.^[1] Data, information and knowledge of any kind are being exchanged via these infrastructures. The incapacity or destruction of such systems would have a debilitating impact on societal functions. The internet, consisting of its many networks connected by peering has enormous significance for the individual, society, value chains and public management. Yet, at the same time, they are an Achilles' heel of modernity.

Fatten Up Your Vocals

by Ben Busack

One of the hallmarks of home recording is thin tracks. Thin drums, thin guitars, thin bass... But when the vocals sound like they were being sung in a two-dimensional singer, that's when it's time to do something about those tracks.

As you'll see, one of the best ways to fix this problem is to move the microphone to different mix positions and if it still sounds thin, try aiming the mic towards the chest. If you're using a condenser, move it out for a dynamic mic and see if a little proximity effect helps. This might take you into territory where voices get to be too harsh, but a skilled singer should be able to work the mic just right.

Immediately, there are situations where retiming isn't an option or we just get lazy. It happens, though it's not pretty. But there are still some tricks to help you out.

Hanging breathing? That's when the mix and the vocal don't sync up. Another common trick is to double track the voices, which is a cool effect, but doesn't really fit in. Two thin voices doesn't always make a thick single lead. You can also stop some tape saturation on it. Or try using a subtle pitch shift on copies of the same vocal. Shared leads with slightly different delay times can work, but watch out for phasing.

Anyways, this article from *Beats Music* has some good ideas, like the one they call the Rocky Marin.

Rocky Marin

I used this article because it has some nice ideas. Plus one of the voices does work, and the other...

Остановка «Сапсан» может появиться в Орехово-Зуеве после 1 ноября

14.03.2014 МОСКВА, 19 сен — В Подмосковье: Остановку скоростного поезда «Сапсан Москва — Нижний Новгород» могут организовать в подмосковном Орехово-Зуеве после 1 ноября, заявил в пятницу заместитель председателя областного правительства Петер Иванов.

«Вместе с РЖД мы работаем над вопросом остановки Сапсана в крупных городах Подмосковья. Последние дни мы проводим консультации с Росжелдором, региональной дорожной, говорят о том, что на направление Орехово-Зуево, скорее всего, после 1 ноября будет возможность запустить для поезда с остановкой в Орехово-Зуеве», — заявил Иванов журналистам после заседания Высшего совета.

Он отметил, что также остановка «Сапсан Москва — Санкт-Петербург» может появиться и в Кимрах, для этого потребуются модернизировать платформу и аналогично изменить расписание.

В пятницу в доме правительства региона состоялось расширенное заседание Высшего совета. В нем приняли участие члены правительства Подмосковья, главы муниципалитетов, депутаты Мособрдумы, члены Общественной палаты, представители религиозных конфессий, руководители бизнес-ассоциации области и губернатор Гаджиев Андрей Воробьев.

На очереди — туризм под конвоем?

Для получения российской визы иностранные туристы должны будут указать «маршрут предполагаемого пребывания». Об этом сообщается на сайте Ассоциации туроператоров России (АТОР).

Отмечается, что кроме перечисления населенных пунктов, которые турист собирается посетить, в анкете необходимо будет указывать адрес постановки на миграционный учет. Также иностранцу придется предоставить сведения о приглашающей и принимающей стороне, в том числе указать паспортные данные россиянина, его адрес и телефон.

Заполнение форм будет обязательным для всех заявителей, вне зависимости от категории и вида запрашиваемой визы, а также ее кратности.

Новая форма анкеты для иностранцев, утвержденная Федеральной миграционной службой, вступит в силу 26 января.

Sanzioni Codice della Strada: dove trovare il prontuario completo delle multe

DI ANDREA FRATTI, 29 FEBBRAIO 2014

Conoscere le sanzioni previste per l'infrazione al Codice della Strada è fondamentale per ogni automobilista; ecco, dunque, tutti i nostri consigli, per rimanere sempre aggiornati sull'argomento.

Vi abbiamo selezionato alcuni siti, dove potete trovare le giuste informazioni:

- Su codicedellastrada.net (cliccate qui, per accedere al sito), trovate un prontuario delle infrazioni.
- Su aci.it (cliccate qui, per accedere alla pagina), trovate una selezione delle violazioni stradali più diffuse, con le relative sanzioni previste. Inoltre, è possibile ricercare le sanzioni in base agli articoli del Codice, oppure in base alla tipologia di violazione.

The falling autumn leaves signal another season of drafting young Russian males for the nation's compulsory military service. As the leaves depart from their trees, so do the young Russian males from their homes and families, both serving their "rite of passage". The current draft is already in motion and will continue until New Years Eve. All male Russian citizens aged 18-27 will be scheduled for their 12 month term in the Russian military. This traditional recruitment dates back to the Russian Empire, when males had to serve approximately 20 years. Over the centuries, the term has shortened but was never terminated.

Военная ипотека: основные положения, порядок оформления, особенности военной ипотеки в 2017

Государство проявляет заботу о создании для военных и их семей хороших бытовых условий. Не секрет, что для большинства офицеров остро стоит вопрос отдельного комфортного жилья. Так называемая военная ипотека, действующая в рамках федерального закона № 117, который был издан в августе 2004 года, позволяет решить проблему крыши над головой. В этой статье мы расскажем об всех нюансах и тонкостях, возникающих при приобретении недвижимости.

Военная ипотека – основные положения

Ранее обеспечение жильем офицеров армии и флота осуществлялось посредством выдачи срепрок на квартиры. С 2005

Reform hiatus

03 Apr 2017

CORREBEN is mid-March, Spain's Parliament rejected voting into law the port labour reforms that are necessary to meet European Commission requirements. In effect, Spain, for the time being at least, remains out of step with the majority of EU countries.

The reforms were backed by Spain's ruling Popular Party, a minority government, which is dependent on opposition support for implementation of its key policies. The vote for the liberalisation of the country's port industry was carried out on 17th March, 2017, with 176 in favor and 33 abstentions. On hearing the result, unions cancelled the strike planned for the immediate future.

Effectively, this leaves Spain's port labour arrangements in a non-competitive position compared with other European countries and an even worse position compared with other regions which offer competition to Spain in the transhipment sector - Tangier in North Africa for example. In this respect, the unions may have won a victory over the vote - and they do have strong political influence, particularly with coastal politicians - but it remains to be seen if they will be able to impose their will on the new government. The new government, however, is not under contract, is a strong candidate to see large volumes transferred to it from Spain. High port labour costs and transhipment are a 'mix' that worldwide experience shows has a limited lifetime for very large volume transhipment movements.

The attitude of Spain's industrial unions to the reforms, which effectively aim to make the sector more efficient and therefore competitive overall, is reminiscent of past port union attitudes around the world - Italy, the UK and Australia for example - when confronted with large scale reform, i.e. to 'dig in' and say the reforms are not necessary. The simple truth, however, is that they are essential for a myriad reasons - to exploit the advantages of new technology, to adapt working procedures compatible with the introduction of new ship types and generally to achieve the efficiencies and economies that are vital in today's world to remain competitive.

It is not for no reason that the vast majority of EU countries have adopted the EU standards relating to port labour. Equally, where there has been resistance to change in the port sector by countries outside the UK - Australia for example - reforms have eventually been introduced. It is summed up by one simple word 'Progress.'

CÓMO SUPERAR EL PERFECCIONISMO: LAS 10 CLAVES (PARTE 2)

19 noviembre 2013

Como hemos visto en la [primera parte](#) del post, el perfeccionismo aplicado a todas las facetas de la vida (trabajo, familia, ocio, asuntos personales) es un continuo sin vivir. Un ideal inalcanzable del que solo emanan decepciones y frustración.

El perfeccionista suele pensar que ha tenido éxito gracias a su forma minuciosa, exhaustiva y controladora de hacer las cosas, cuando en realidad lo ha conseguido peleando a ello.

Darse cuenta de esto y salir de esa seguridad falsa, pero conocida es un gran paso, de un valor incalculable.

A continuación, sintetizo las 10 claves que considero fundamentales para dar el paso y superar el perfeccionismo:

When you have an illness you have to fake it sometimes. You need to go to work or school, be an active part of your family, hang out with your friends, do fun things, etc. Having a chronic and/or mental illness means that you will often feel depressed, anxious, uncomfortable, or in pain more often than the average person. So, we fake it.

But this can become problematic quickly. Are there consequences to faking it? Are there benefits to faking it? Well here's what I have noticed in my own life when I fake it.

- I expend unnecessary energy
- I feel like I am invisible
- I sometimes wonder if I am just imagining the pain or if it is not actually that bad
- I feel like no one can understand me
- I don't talk about my illness
- I don't let others know how I am doing or give them opportunities to help
- I do not seek help
- I feel a little bit more in control of my life

#97: Security Now (2014)

Мотоцикл

Второй легендарный шаг вперед: становление мотоцикла и получения индустриального распространения. Меняется виды и приобретение предмета индустриального искусства – мотоцикла. Количества новых и новых с каждым годом растут и увеличиваются. Но каким становится – решать только вам. Если заняться в мотоспорте не сужу круг предпочтений, вполне можно походить на нескольких типах техники в мотоспортах, побывавших с опытными байкерами. Многие выбирают по внешнему виду или по отзывам на форумах. Одного решения не существует.

Фото: Flickr: Amanda G. Alonso

Мы предлагаем следующий набор качеств первого мотоцикла, которые, скорее всего, помогут получить много удовольствия и минимум проблем при эксплуатации:

- ТОПОВЫЕ новая техника из салона;
- известный, зарекомендовавший себя на мировом рынке, бренд;
- общий двигатель 125 – 250 см.

9 And He called the twelve together, and gave them power and authority over all the demons and to heal diseases.² And He sent them out to proclaim the kingdom of God and to perform healing. (Luke 9:1-2 NASV)

We read in the Gospels that Jesus gave His disciples authority and power. So what does it mean to have authority and power?

The simplest definition is that authority means a person has the right to do something, and power means they have the ability to do it.

Gasto militar 2015

CUÁLES SERÁN LOS COSTOS MILITARES DEL ESTADO EN 2015?

Imagen de Armando G. Alonso

En nuestro criterio, para 2015 el Ministerio de Exteriores va a contribuir al Gasto Militar del Estado español con una cifra nada deseable: 171'53 millones de €. Lo que representa una militarización del 17'24 % de su presupuesto.

Estas partidas responden a los siguientes gastos:

- La partida 48101 de Subvención a la Fundación Real Instituto Elcano, que en 2014 gastó 0'25 millones € y para 2015 gastará 0'15 millones de €
- La partida 48103 de subvención a la Asociación Atlántica Española que en 2014 fue de 0'001 millones € y en 2015 se mantiene.
- Muy curiosa es la partida dedicada a transportes del Ministerio de Defensa por 1'239

MOS MAIORUM: A HUNT FOR THE UNDOCUMENTED

On November 25, 2014 In EU, Europe, Human Rights, Security

Police across EU participated in a search for undocumented immigrants this October. Source: Armando Alfonso, Flickr CC.

Between the 13th and 26th of October 2014, a hunt for illegal immigrants took place in several countries in the European Union. The operation was initiated by the Italian Presidency of the Council of the European Union in cooperation with the European border authority Frontex. All the EU countries were invited to participate. The goal was to stop trafficking networks but it has been heavily criticized for worsening the exposed situation of already vulnerable individuals.

Information about the operation is hard to come by; the European Parliament was not the main actor in charge, and provided therefore no answers to inquiries. Elected politicians have been reluctant to answer questions on the issue, and in Sweden the politicians have referred to the police on questions about Mos Maiorum since it was mainly the police that took action in this project. But the police was also unwilling to comment on the operation; referring to a common policy not to comment on operations to avoid putting the operational success at risk. Only one official document regarding the operation is open to the public, it is published on the EU website but a lot of the information has been deleted. However, the original document has been leaked, giving some insight. The operation was aimed at among other things to "apprehend irregular immigrants" and to carry out police controls at border crossings, railway stations, bus depots, and highways. Besides finding undocumented immigrants, the aim with this operation states to be to identify, prosecute and disrupt organized crime groups, to fight illegal immigration and to find the

La imperial San Petersburgo, tierra de los zares de Rusia

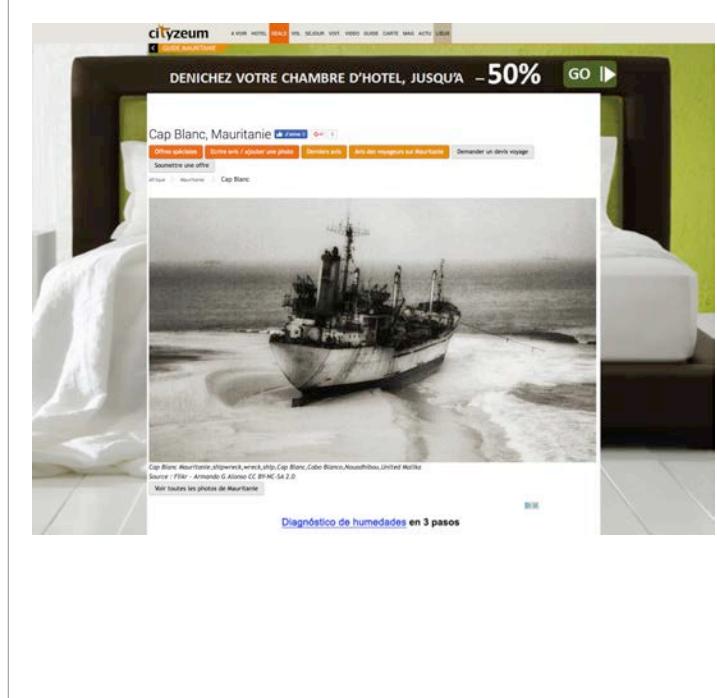

San Petersburgo ha sido una de las ciudades residencia de los zares de **Rusia**, esto ha dado lugar a que queden vestigios de esa maravillosa época.

San Petersburgo es conocido como la ciudad cultural de Rusia y el que la visita lo puede comprobar en sus hermosos museos, palacios, castillos, catedrales, residencias y demás. En la actualidad es uno de los principales destinos europeos.

The screenshot shows the homepage of Wojna.info. The header features a large banner with a soldier in a gas mask and the text "WOJNA.INFO". Below the banner, the main title "Źródło wiedzy na trudne czasy" is displayed. The navigation menu includes links for "Start", "Podstrona agencji „CZERWONY”", "artyWojska", "Informacje", "Przestrzeganie", "Wojna", "Zagrożenia", "Całe teksty", "Archiwum", and "Kontakt". A search bar is located at the top right. The left sidebar contains sections for "Najnowsze teksty", "Drukuj", "Wyślij", "Zapisz do pliku", and "Zapisz do katalogu". The right sidebar includes a "Przybornik" section with links to "Zarejestruj się", "Zaloguj się", "Kanal RSS w koszem", "Kanal RSS w komercyjnym", and "WordPress.org". A "Najnowsze komentarze" section lists recent comments from users like "Piotr Pasztula" and "Robert Mieraszko". The central content area features a large image of a soldier in a gas mask. Below the image, a fragment of a text from "Wojskowy portal strategiczny" discusses large-scale Russian military transports to Belarus. A smaller image of a soldier kissing a woman is also present.
